## **PRESS RELEASE: IL-MEDTEC AG ANNOUNCES CORPORATE NAME CHANGE TO BLUE MEDICAL AG**

IL-MedTec AG today announced it will change its name to Blue Medical AG, effective 24 May 2019. The new name has been chosen to better reflect the company's new strategic focus. This involves further extension of existing contract packaging services for the medical technology sector and the development of products for the healthcare industry that take into consideration the increasing cost pressure on hospitals and healthcare institutions but still offer high-quality solutions to increase patient security.

The company, founded 2005 in Burgdorf, has recently celebrated its 14th birthday. Since the foundation IL-MedTec AG has successfully developed into one of the country's leading contract packaging companies, who has been working for over a decade for several world market leaders.

Although IL-MedTec AG is well known in the industry, Lorenzo Zoccoletti and Vincenzo Carrieri (Co-CEOs) commented: "The time has come to progress to the next stage of the development starting with a new name reflecting more accurately the future company values, providing cost-effective quality services that add real value to our customers and particularly focuses on patient safety."
